

# 575W HMI PAR

The CINEMILLS Silver Bullet 575W PAR lights are ideal for interior and exterior lighting applications. Smaller than its 1200W Counterpart yet compatible with both 575W magnetic ballast or 575/1200W Electronic Ballast. Whenever punch or bounce light is required on a set, a PAR is the ultimate answer. The interaction of lamp, reflector and converter lens has been computer simulated, resulting in unmatched light performance. A wide range of converter lenses ensure maximum beam control in all situations (narrow, medium, super wide and frosted Fresnel).
