## Instructions:

The LEDZ Brute 3 is powered by the supplied 100-240v AC power supply unit. Plug the power supply into the wall socket and the female end into the side of the Brute 3. There is no on/off switch, the power is on whenever connected to a power source.

Adjust the light output intensity by turning the on-board dimmer (located on the side of the fixture) counter-clockwise to required light output.

### **BRUTE 3 Warning:**

Do not exceed 13.5v - 10 amps DC from any power source

The Brute 3 has a filter frame as an available accessory. To insert a filter of gel, press the gel between the Brute 3 and the filter frame, latching the edges of the frame over the rivets on the sides of the Brute 3

Warning: To prevent circuit failure, do not expose unit to, or immerse unit in liquids.
